AI/AN Crime Victims

- More than four in five AI/AN adults (83 percent) have experienced some form of violence in their lifetime.²
- Over 80% of AI/AN will experience intimate partner violence, sexual violence, or stalking in their lifetime.³
- More than half of AI/AN women (56.1 percent) have experienced sexual violence in their lifetime, and 1 in 7 will experience sexual violence every year.⁴
- When AI/AN experience violent victimization, they are *more* likely to need services as a result of the victimization and *less* likely to have access to those services.⁵
