EXPENSE ITEMS BASED ON FTE AND TCS

NOTE: This system automatically calculates the FTE (full time effort) and TCS based on the information that you have provided on the first page. (in this system, TCS is called “% children served”)

- TCS is calculated based on # children served with grant funds per month divided by total children served by agency per month
- FTE is calculated based on Total grant hours/week divided by Total hours/week

You will only be able to request reimbursement for monthly expenses against line items included in your budget. In order to add a new expense line item, you must update your budget first.

Enter the requested information for each expense. Enter 0 if there was no expense made on that line item during that month.

You will need to attach a receipt for each expense unless you have done so previously (i.e. If you attached your lease in the budget, you do not need to attach monthly receipts for rent)

Line Times in your budget	Factor Value used	Monthly Amount	Receipt?
Example: Supplies	TCS	\$500	yes

Indirect Rate

As with the budget, the system will automatically calculate the indirect rate on each reimbursement.

Enter the monthly cost for each expense. Enter 0 if there were no expenses on this line item for the month.

You will need to attach a receipt for each expense unless you have done so previously

If you are using the Indirect Rate:

Item Name	Category****	Monthly Rate	Receipt?
Example: Background Checks	Child Safety	100	Yes
